DATA CENTERS Loosen or tighten rules around data center development?	Tighten. Wants more transparency in how data centers are approved, increased regulations, and fewer financial incentives. " Data centers need to work for Ohioans." Opposes loosening air and water quality standards for data centers. Would "ensure that Ohio consumers and...ratepayers are not the ones shouldering these added costs."	Mixed. Calls the "data center boom" in Ohio "good." Wants data centers to cover their own energy and water costs. "If you're going to use energy , pay for your own energy." Calls the move to curtail data centers "a terrible idea." "We want to prepare ourselves for leadership in the sectors of the future."
EDUCATION Use public funding for private and/or for-profit schools?	No. Opposes a private school voucher program that "is sending billions...of your tax dollars to fund private schools." " Decades of privatization schemes and special interest giveaways have led to worse outcomes for our kids." Would "get control of the opaque private school voucher system with runaway costs."	Yes. Supports Ohio's school voucher program. Wants to take school choice "to the next level, because every parent deserves to be able to send their kids to the best possible school."
